

# Rosso di Valtellina D.O.C.

## Vintage 2019

**GRAPES VARIETIES AND VINEYARDS:** The most important grape variety is, of course, Nebbiolo grape which accounts for 95% of all the grapes.

The remaining 5% is made up of Rossola, Pignola, Brugnola: they are local grapes varieties that you occasionally can find in Valtellina Valley vineyards.

The grapes come from vineyards located in Valtellina Superiore DOCG sub-zones.

**VINIFICATION:** We picked the grapes by the end of October using small boxes containing about 20 kg, each.

The boxes were carried as soon as possible to our cellar where the grapes were put through the de-stemmer and crusher.

The crushed grapes were pumped into a stainless steel tank where alcoholic fermentation took place.

The maceration time lasted 7 days.

After the end of the fermentation process, we drained the wine off. Then we racked it off and let it mature in stainless steel vats for about 7 months before bottling.

We used no oak barrels for making this wine.
